

CLC Will Present Concert

The College of Lake County Music Department will present its Fall Concert on Sunday evening, Nov. 22, at 8:00 at the First United Methodist Church, Clayton and Utica Streets, Waukegan. The concert is open to the public free of charge.

Featured in the concert will be the 65 voices of the College of Lake County Community Chorus and the College of Lake County Singers under the direction of Mr. Warren G. Simpkins (Grayslake), instructor of Music at the college.

Both works to be performed during the evening are contemporary Midwest composers. The selections will be "Lord of the Sky" and "Opus for Contemporary Decision."

"Lord of the Sky" was composed by Sven Lekberg, Chairman Emeritus of the Department of Fine Arts at Simpson College in Iowa. Highlight of the evening will be the introduction of Lekberg who will be attending the performance of his work at the invitation of the College of Lake County. Immediately following the concert a reception will be held in the Fellowship Hall of the church offering an opportunity for the audience to enjoy refreshments and to meet Dr. Lekberg and the members of the chorus.

Lekberg was born and raised in Chicago and graduated from Northwestern University. He holds a Master of Music degree from the Eastman School of Music and has done graduate work at Columbia University and the Union Theological Seminary. He continued his studies in Paris with Paul Braud and Vincent d'Indy at the Schola Cantorum. In 1957, he was awarded the L.H.D. degree by Illinois Wesleyan University and for the past 30 years has served as Chairman of the Division of Fine Arts at Simpson College.

Following completion of his studies in Paris, Lekberg performed many piano recitals in this country and in France. As a composer, he has published many works, most of which are choral. Much of his life has been spent in the academic world and he is devoted to teaching, lecturing and to association with students of all ages.

Philosophy, religion and the arts, with special interest in the Italian Renaissance and church music of the sixteenth century are only a few of his many interests. Lekberg regards music and the other arts as a way of life rather than a profession. His interests and studies lie in many different directions and he is committed to the enrichment of the spirit through intellectual discipline and cultural growth.

Village Seeking Way To Take Over Lake St.

View on state plumbing code exchanged during recent Plumbing Inspection Conference brought together from left, Otis E. Cripe, Marengo building inspector, Dave Buck, of D/Bee Plumbing, Mundelein, Waukegan

plumbing inspector Robert Needham, Antioch building commissioner Walter Delaney, Wauconda building inspector John Kuester and Island Lake Mayor David W. Francis.

The Antioch Village Board has proposed to take over Rte. 59 (Lake St.) from Rte. 173 to Rte. 83 in action taken Monday night at its meeting.

An inquiry has been directed to the Department of Public Works and Buildings on the village's proposal after Trustee George Bartlett suggested that Rte. 59 and Hillside Avenue be made a four-way stop in wake of increased traffic at the intersection.

It was Village Mayor Raymond Toft who offered the idea that the village look into the possibility of taking over the responsibility for Rte. 59 (Lake St.) which extends into the village from Rte. 173 and connects into Rte. 83 (Main St.).

"Some highway officials suggested the village do this some years ago," said the mayor. "I believe the village should be compensated for taking over the route."

Bartlett told the other trustees that they should give thought to the plan of making Rte. 59 and Hillside Ave. a four way stop.

Bartlett was advised that it would be necessary to get state approval on Rte. 59 before the four-way stop could be initiated at the intersection.

"I don't believe the survey should be taken now," Bartlett pointed out, "but during the peak traffic months of June, July and August."

"The plan has merit," said Trustee Vern L. Barnstable, "as long as there is not back up of traffic on Lake Street."

Said Village Attorney Edward Jacobs: "If we take the survey now and it proves negative we could ask for a second one. But if we win, we're in business."

Bartlett added, "Lake Street has the appearance of being our main business thoroughfare."

In other business, the village learned that the state has banned all overhead signs on state highways running through the village.

The state had in reference the overhead sign which extends over Main Street (Rte. 83) and used widely by the Antioch Chamber of Commerce in publicizing its promotions and by civic and church organizations for their events.

The chamber paid for the installation of the poles from which extend the banners. There is no restriction of suspending banners on village controlled streets, Mayor Toft said.

The board approved the proposal by Richard O. Burnette, chairman of the police committee, to advertise for bids for the purchase of a new police squad car.

Bids will be opened at the Dec. 7 meeting. Specifications are available at the village hall.

Burnette said his committee will hold another meeting to discuss the hiring of an attorney to represent the village in Fox Lake Magistrate Court on violations of city ordinances.

"I think we can group all of the city ordinance violations on one day," said Police Chief Jack Davis. "This will only require the use of an attorney only one day a month."

One of the obstacles was the cost of the attorney.

Jacobs said he could not appear in court unless he was authorized by the village board.

Jacobs said the hiring of an attorney should be done only if it would be profitable to the village. "Why do it if the village collects \$75 in fines, and it has to pay the attorney the same amount for the time he spent in court," he said.

The board approved the purchase of a 1970 tractor with 400 hours of use from the Pedersen Implement Co. of Antioch at a cost of \$3,900. The village will trade in two older model tractors for the new unit.

The vote was unanimous. Any one negative vote would have nullified the purchase since it was done without the advertising of bids.

Village Clerk Marilyn Sterbenz said the state has told her that stop signs on both the east and west ends of Lake Street should be removed.

'Trojan Women' Cast Is Named

Rehearsals have begun for the College of Lake County Theater production of Euripides' "The Trojan Women" to be presented at the Brainerd Auditorium in Libertyville on Friday and Saturday evening, December 4 & 5, at 8:15 and Sunday afternoon, December 6, at 2:00. The Brainerd Auditorium is located in Libertyville on Rte. 176 just west of Milwaukee Avenue (Route 21).

Tickets for the production are priced at \$1.50 for adults and 75 cents for students. All CLC students and staff members are admitted free of charge with the presentation of their student identification card. Ticket information may be secured by calling 223-2036.

Frank Harnish of Grayslake, Instructor of Speech and Drama at CLC and director of the current production, recently announced cast members who will be participating in the forthcoming CLC Theatre presentation. All of those in the cast are members of the student body of College of Lake County and represent seven communities in the college district.

Pat Crop of Mundelein portrays Hecuba, queen of the fallen Trojans, who retains her strength and royalty as she accepts her destiny as a slave to the conquering Acheans. Leading the conquering forces is John Mills, also of Mundelein, as Thelybius, general of the Acheans, who finds himself torn between his desires to return home and his commitment to his duties as a soldier.

Hecuba's daughter Cassandra, played by Mary Sutton of Fox Lake, is happy because in her own demise she forces the destruction of her captor, but is trapped in her prophetic doom by her ability to see the future but never to be believed. Andromache, wife of the dead hero Hector, is portrayed by Barbara Lang of Mundelein. Andromache struggles within herself over the question of accepting conditions

which offer her the opportunity of finding a new life while still remaining true to the memory of her husband.

Rebecca Angeloff of Grayslake will create the role of Helen, reputedly the most beautiful woman in the world and over whom the long and bitter war has been fought. Menelaus, former husband of Helen and now her captor, is Jerry Kapler (Waukegan). He is a man betrayed by Helen but with a continuing love for her while still sensitive to his own honor.

Watching over these human emotions are Poseidon, god of the sea, played by Vaughn Filwell (Waukegan) and Athena, goddess of defensive war and wisdom, played by Maureen Froehlich (Waukegan).

Lending the beauty of poetry and dance in the tradition of the Greek theatre are the members of the chorus: Joanne Cowen, Mary Kaye, and Kathy Rummion of Mundelein, Michelle Trust and Lin Nordberg of Waukegan, and Beverly Palmberg of Libertyville. Blending their voices and movements, these vital members of the cast set the mood of the drama and interpret events by discussion of the events and reacting and giving advice to the central characters.

The conquering Achean troops will be portrayed by Marty Lusak (Antioch), John Potter (Libertyville), Don Crop and Richard Dase of Mundelein, Tom Foley (Waukegan) and Bill Simpson (Wildwood).

Director Frank Harnish has selected "The Trojan Women" because of its use of a large cast involving many different individuals from the campus community and the opportunity to develop these individuals in their acting techniques. "By necessity," stated Harnish, "the Greek theatre dictates the actor must be larger than life with strong emotions" (Continued on page two)

Plumbing Enforcement Feasible

Consistency in the enforcement of plumbing codes in communities in Lake and McHenry Counties can be achieved by uniformity in the interpretation of the state plumbing code officials from more than 30 Lake and McHenry Counties were told at a recent meeting at Martinelli's Restaurant, Crystal Lake.

The meeting was sponsored by the Industry Advancement Fund of the Plumbing & Heating Contractors Assn. of Lake and McHenry Counties and featured a discussion of the state plumbing code led by Jack Wilson, head of the sanitation engineering division of the Illinois Department of Public Health, and John Leigh, district plumbing inspector for the Public Health Department.

Among those attending the conference were Antioch Building

Commissioner Walter Delaney, and John Thompson, Lake County Building Officer.

The meeting was opened by L. E. (Ozzie) Koetz, of Koetz and Barton, Inc., Zion, and president of the Lake-McHenry Association, who pointed out that the Plumbing Contractors Certification Law is a strong tool in enforcing state plumbing codes and urged every community to make the Certification Law a part of local ordinances.

Ron Short, Secretary-Treasurer of Plumbers Union Local 93 which has jurisdiction in the two counties, told the inspectors that they share responsibility with the plumbers and plumbing contractors in assuring the people of the two counties properly designed and installed plumbing systems which he termed essential

to the health and welfare of the public.

Among the subjects covered in the six hour conference were new materials including plastic piping which is becoming an important factor in plumbing; the impact of modular or pre-fabricated plumbing installations and the inspection problems which are already arising, and technical provisions of the state code.

William Maxey, newly appointed Commissioner of Building and Zoning for the County of Lake, lauded the plumbing industry for its efforts to improve its image and its stress on the importance of quality installations.

Representing the Association in addition to Pres. Koetz were Vice President Dave Buck, of Mundelein, and Greg Streb, of Crystal Lake, and Alan Stewart, of Cary.

VA Approves Mobile Homes For Veterans

The Veterans Administration announced today it will finance mobile homes for veterans and servicemen starting Dec. 22.

Administrator of Veterans Affairs Donald E. Johnson said PL 91-506, which President Nixon signed Oct. 23, authorizes VA to guarantee or make direct loans for this purpose.

Earlier this year, the President's Committee on the Vietnam Veteran, of which Johnson was chairman, recommended legislation on mobile home financing. The committee said the legislation was needed to provide "low cost housing for low and moderate income veterans."

The law which provides financing for mobile homes also restores expired G.I. loan benefits to some 8.9 million World War II and Korean Conflict veterans. The law also preserves these benefits for all veterans who served after Jan. 31, 1955 until they are actually used.

Another provision eliminates the .5 per cent funding fee VA formerly required Post Korean veterans to pay on guaranteed and direct home loans. It was emphasized this provision does not affect loans made before Oct. 22, the date the bill was signed.

The law also makes direct loans for specially adapted hous-

ing available to seriously disabled veterans in all part of the country.

The VA Administrator noted these specific provisions of the law on the financing of mobile homes:

*Establishes a special mobile home loan guaranty or direct loan benefit for veterans and servicemen who have not previously used any of their \$12,500 home loan guaranty eligibility to purchase conventional homes.

*Provides that if a veteran or serviceman uses his mobile home loan entitlement, he may not otherwise use his \$12,500 home loan entitlement until he has repaid the mobile home loan in full.

*Provides that VA may approve loans up to a maximum of \$10,000 for a mobile home, and up to \$17,500 where a suitable lot to place the mobile home on is purchased.

*Provides that the VA may guarantee up to 30 per cent of the loan for a mobile home, but use of this guaranteed, or direct loan benefit does not reduce the veteran's or serviceman's \$12,500 guaranty entitlement.

While emphasizing VA has not had experience in loans for mobile homes, officials expect about 13,000 loans to be made during the first year of the new program.

Group Aids Cleanup

On Saturday, Nov. 14, despite the near freezing temperature, a group of students and Lions Club members worked to solve part of Antioch's pollution problem.

In less than four hours, volunteers were successful in collecting more than five truckloads of trash, litter and junk from the town. For the past several weeks, the Students for Environmental Awareness of Antioch High School and the local Lions Club had been planning the extensive clean-up. The objective of the high school group, more commonly known as the S.E.A., was to involve not only itself but the entire student body.

Stress Affects Living

"Stress affects all aspects of family living in these times of change and tension," stated Dr. Donald Donica, Executive Director, as he announced that Central Baptist Children's Home will extend its services to include counseling to families.

"Our experience in caring for children in both our residential treatment setting and our foster family care has definitely shown it is much less costly, both financially and emotionally, for a social worker to be able to hold together a family threatened by social or economic disruption than to choose a plan of care for the children away from home," he

pointed out. "The amount of maladjustment thus avoided is incalculable. More important is the fact that these children can grow up normally as contributing members of our society."

The new program, to be known as the Family Counseling Center, is an endeavor in these highly complicated perplexing times to help meet the needs of an increasing number of children and their parents who are faced with problems that can be helped by professional counseling. The purpose of the Center will be to foster development of healthy family life, reduce stress, and prevent family breakdown through

individualized services to families with problems. Professional staff will be available every Tuesday, Wednesday, and Thursday evenings from 6:00 to 9:00 p.m., and Saturday from 9:00 a.m. to 5:00 p.m. The Center will be located in the Casework office on the Central Baptist campus on Rt. Earlier this year, the President's Committee on the Vietnam Veteran, of which Johnson was chairman, recommended legislation on mobile home financing. The committee said the legislation was needed to provide "low cost housing for low and moderate income veterans."

The law which provides financing for mobile homes also restores expired G.I. loan benefits to some 8.9 million World War II and Korean Conflict veterans. The law also preserves these benefits for all veterans who served after Jan. 31, 1955 until they are actually used.

Another provision eliminates the 5 per cent funding fee VA formerly required Post Korean veterans to pay on guaranteed and direct home loans. It was emphasized this provision does not affect loans made before Oct. 22, the date the bill was signed.

The law also makes direct loans for specially adapted houses

ing available to seriously disabled veterans in all part of the country. The VA Administrator noted these specific provisions of the law on the financing of mobile homes:

*Establishes a special mobile home loan guaranty or direct loan benefit for veterans and servicemen who have not previously used any of their \$12,500 home loan guaranty eligibility to purchase conventional homes.

*Provides that if a veteran or serviceman uses his mobile home loan entitlement, he may not otherwise use his \$12,500 home loan entitlement until he has repaid the mobile home loan in full.

*Provides that VA may approve loans up to a maximum of \$10,000 for a mobile home, and up to \$17,500 where a suitable lot to place the mobile home on is purchased.

*Provides that the VA may guarantee up to 30 per cent of the loan for a mobile home, but use of this guaranteed or direct loan benefit does not reduce the veteran's or serviceman's \$12,500 guaranty entitlement.

While emphasizing VA has not not had experience in loans for mobile homes, officials expect about 13,000 loans to be made during the first year of the new program.

On Saturday, Nov. 14, despite the near freezing temperature, a group of students and Lions Club members worked to solve part of Antioch's pollution problem.

In less than four hours, volunteers were successful in collecting more than five truckloads of trash, litter and junk from the town. For the past several weeks, the Students for Environmental Awareness of Antioch High School and the local Lions Club had been planning the extensive cleanup. The objective of the high school group, more commonly known as the S.E.A., was to involve not only itself, but the entire student body.

Good Eye Safety Begins At Home

Each year, thousands of children and adults have accidents of one kind or another which result in severe eye injury or total loss of sight.

The National Society for the Prevention of Blindness states that while many of these accidents are unavoidable, injuries can be minimized or prevented altogether if the proper precautions are taken.

The Society's eye safety campaign emphasizes several points.

All eyeglasses, says the Society, whether they are for corrective purposes or are non-prescription sunglasses, should have lenses made of safety glass or shatter resistant plastic.

These materials will not splinter, which can mean the difference between little or no injury and serious injury or blindness if the glasses are broken while being worn. This is especially important in children's glasses, since a child's active life presents so many possibilities for falls and other accidents. But anyone who wears glasses for any reason is the potential victim of an eye accident and needs the protection of safety glasses.

Employees of industrial plants and chemical laboratories must be particularly cautious where their eyes are concerned, as the very nature of their work exposes them to numerous hazards.

Hundreds of cases come to the Society's attention each year of individuals whose vision has been preserved because they took care to observe their companies' safety regulations.

The sight of many hundreds more can be saved if these good examples are followed.

This is true in school workshops and labs. Thirty states now have special eye safety laws requiring that eye protection be worn in all school shops and labs, where the danger of an accident is always present.

Such laws can only be beneficial if stringently implemented, and the Society strongly encourages their strict observance.

There are plenty of eye hazards to be found around the house, as well as at school and work, and awareness of these dangers goes a long way towards preventing injury.

For instance, with careful attention to directions for use of household cleaning products, particularly those in aerosol cans and spray bottles, painful eye injury can be avoided. Insecticides and herbicides should also be used with caution.

The same kind of protective eyewear required for use in school workshops should be used in home workshops, as well. Even mowing the lawn can prove hazardous, if small objects are thrown up by the mower.

The Society has a special eye safety message

For the second selection of the evening, Simpkins has chosen an exciting work which the Music Department of Tabor College in Kansas commissioned Ted Nichols to compose. It is a musical

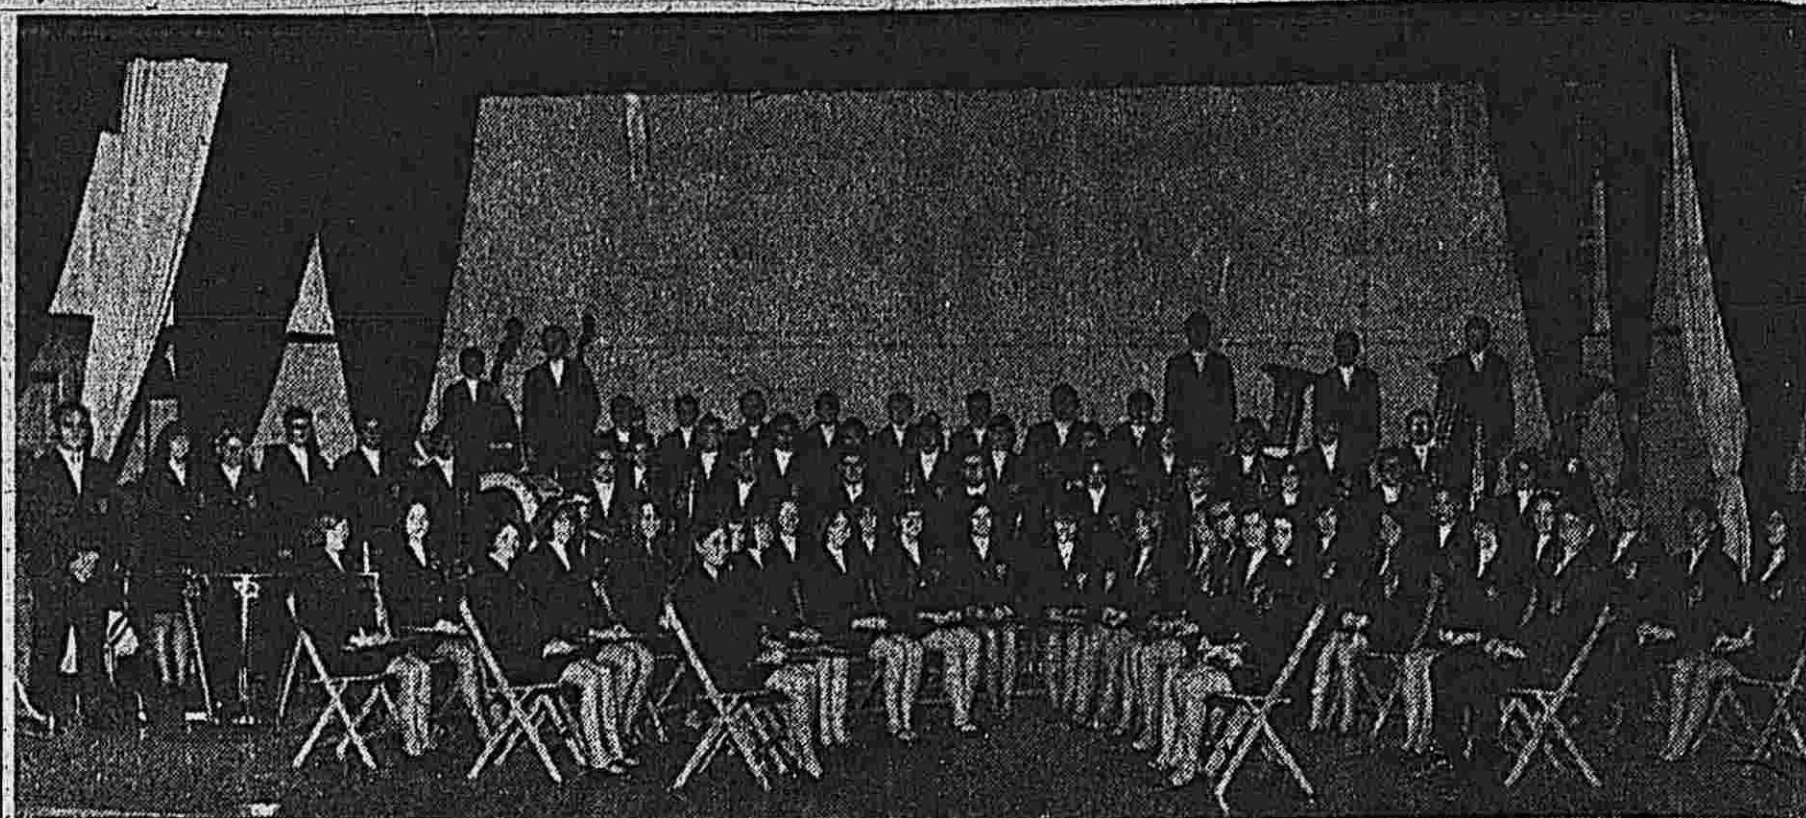

religious service in the "Now" generation style and was written as an experiment in exploring new musical expressions in worship. "Opus for Contemporary Decision" contains three movements, "Rebellion, Search, and Commitment", which reflect the search for meaning to life that permeates so much of our changing society according to Simpkins.

The premier performance of this work was given by the Tabor College choir in January, 1968, and was so well received that it was programmed by the choir for its west coast tour during the spring of 1968.

Communication of the message of this work is greatly enhanced by a spoken narration which will be performed by Charles Stransky of Waukegan. Stransky is a former resident of Grayslake and appeared in last season's College of Lake County Theatre presentations of "J.B." and "The World of Carl Sandburg".

Simpkins feels both these works have offered a stimulating challenge to the members of the chorus and will elicit an intense and immediate positive response from the audience as the Music and the message have both proven easily identifiable and forceful.

New Hours For SS Office

The Social Security office in Waukegan will no longer stay open late on Monday night due to the success of a program for conducting social security business by telephone, John F. Wysocki, Manager of the office announced today.

The late office hours were discontinued October 31. The office has been kept open on Mondays to permit persons who work to come in the office in the evenings to do their business.

In April of this year, the Waukegan office started a telephone service through which the public can file claims and secure the answers to questions by telephone. "Since this program adequately serves working people, it is no longer necessary to remain open on Mondays," Wysocki said.

The office hours for people wishing to call in person or to secure telephone service are from 8:45 a.m. to 4:45 p.m.

Residents of Lake County can file claims or secure information by calling 244-5050; McHenry County residents may secure the same service by calling 330-4140.

The state also said it will install a stop ahead sign for traffic going south on Rte. 83.

The state has advised that the village correct the hydraulic overflow condition at the sanitary plant, a deficiency noted at the last inspection by a representative of the Environmental Protection Agency.

The report said the plant was handling more than its design capacity of a half million gallons a day.

The mayor said that the condition hopefully will be alleviated

by the repair of sanitary and storm sewers in the Oakwood Knolls neighborhood.

"I believe we should acknowledge the state's letter and tell them what we are doing to alleviate the condition," the mayor said.

The sewer problem was recently uncovered by television cameras.

with cases of family problems where children and young people are directly involved.

Even a strong family can be temporarily disorganized under stress. All the more so if it has weaknesses as well as strengths, as most families do. "We all need an assist at times," says Dr. William Menninger — "not psychiatric aid necessarily, but the kind of services social agencies offer." It is anticipated that families will most frequently seek help where there is a disturbed relationship between parent and child, adolescent conflicts and unmarried parenthood.

Central Baptist Children's Home was organized in 1885. In addition to the residential and foster care programs, it also operates a group home for adolescent boys and a day care and nursery center, both located in Waukegan.

Families desiring further information or wishing to inquire about help should call the Central Baptist Children's Home at 356-2391 and ask to speak to one of the family counselors.

These will be held on Tuesday, Nov. 17, from 1:00-3:00 p.m.; Wednesday, Nov. 18, from 7:30-9:30 p.m. and Thursday, Nov. 19 from 1:00-3:00 p.m.

Less tender and less expensive cuts have the same food value. They are rich in protein which is necessary for body growth and repair. They also contain some vitamins and minerals.

GARDEN CLUB MEETING

The Lindhurst Garden Club met Tuesday, Nov. 17, at the B. J. Hooper School at Sand Lake and Beck Roads at 7 p.m. Mrs. Carl Ranta of Zion presented the program. She showed how to make Thanksgiving and Christmas floral arrangements.

ALTAR AND ROSARY

Fifteen ladies of Prince of Peace parish attended the meeting of the Sodality. Business discussed was: the annual Christmas party for the ladies of the parish, to be held at the Dec. 2 meeting. The ladies voted to cancel the January meeting.

Four ladies represented the S-

ality when they visited the Venetian Manor Convalescent Home last month. They played games, awarded small prizes, and gave out apples and candy bars. Katie Blake, Jenny Volpentesta, Bridie Gibbons, and Rita Chartier were the hostesses, with Yvonne Richter baby sitting for the ladies. They will be going again on Nov. 19.

Parishioners are asked to invite a serviceman to be their guest for Thanksgiving. Mrs. Rita Chartier is making arrangements. Call her if you would like to have one as your guest. 350-2733.

BUSINESS AND PLEASURE

VACATION
Donald and Rita Chartier, 412 Surrey Lane, Seven Hills, mixed pleasure with business last month when he had to go to Kingston, N. Y., to I.B.M. School for three days. Mrs. Chartier and their two children, David, 5 years old and Dorene, 3 years old, flew out there and then drove back with Don. They stayed in Boston with his sister, Phyllis. They enjoyed visiting the old churches, and going through the Revere Copperware Co. In Salem they saw the witch houses. Going through the French quarters in Montreal, Ontario and Sault Ste. Marie was very interesting.

HOSPITAL PATIENTS
Janet Hendrickson, a junior at Antioch High School, has been in Condell Memorial Hospital for almost two weeks, and expects to be there another week. A card sent to room 231 will cheer her. Hurry up and get well.

VISITOR
Mrs. Kathy Jenewein drove her mother, Mrs. Ziz Weinke, back to Baraboo, Wis., Sunday.

OBITUARY
Funeral services for Edward G. Gehrke of Deep Lake Road, Lake Villa, were held Monday, Nov. 9 from Ellgass Chapel, 4117 Armitage Ave., Chicago, to St. Philomena Church. Interment was in Mount Auburn.

Group Aids...
(Continued from page one)

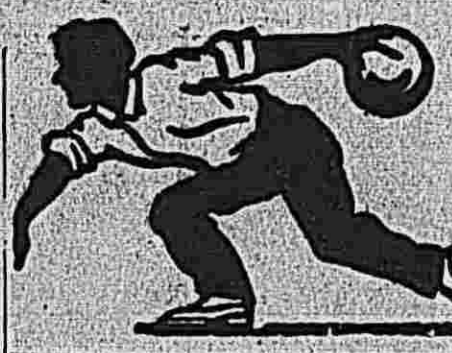

Science Club, the Wrestling team, the Band, and many individual volunteers along with members of the Lions Club, headed by Mr. Peter Houlihan, and the S.E.A. co-sponsors, Mr. William Goetzman and Mr. Paul Boardman met at the high school at noon for general instructions concerning the clean-up.

The 50 students were divided into five groups consisting of from 8 to 10 members each, and each group was assigned a specific area of the town which it was to cover. After a group photo was taken, the student groups, each with at least one Lions Club member to aid it, left for their respective areas and worked until 4:00 p.m. Large plastic bags and trucks provided by the Lions Club were very useful in collecting the refuse and hauling it to the local land fill project. Despite the relatively small turnout, the clean-up was most successful.

At 4:00 p.m., after the clean-up, the students and adults went to St. Peter's cafeteria for a hot dog dinner which was enjoyed by all.

Saturday's clean-up was just one of the many other efforts planned by S.E.A. for the coming year. These activities will include other clean-ups and, possibly, an environmental teach-in at the high school.

An estimated 1,200,000 Americans now living have survived a stroke, and many are back at work, the Heart Association of Lake County says.

CHRISTIAN SCIENCE CHURCHES

What the healing ministry of Christ Jesus can mean to today's world will be brought out at Christian Science Church services Sunday.

Scriptural readings in the Lesson-Sermon, "Soul and Body" include an account in Matthew of multitudes who came to Jesus for healing, "and he healed them."

One of the accompanying passages to be read from Science and Health with Key to the Scriptures by Mary Baker Eddy states: "Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation."

All are invited to attend services at First Church of Christ, Scientist, BEACON HILL, Rte. 173 and Harden, Antioch, beginning at 11 a.m.

St. Peter's Opens Its New Season

The St. Peter Grade School basketball season opened this past Sunday at Lake Zurich. The only team to come out winners were the 6th Grade team, but the 7th and 8th Grade games were very close and exciting. The 6th Grade team, this year is being coached by Mr. M. Zupan. He is also a teacher at St. Peter's. The team won by a score of 18-13.

Dick Kessler is the new coach of the 7th grade team. He is not new to coaching, as he is very active in the summer months with the Yankees-Little League baseball team. (They have won 1st place two years in a row. Hope some of the good luck rubs off on the basketball team.)

The team lost Sunday to St. Francis, by a close score of 33-29. The 8th grade squad is also coached by Mr. Zupan, but has an assistant, Mr. Dubek. Here again was a close game with the final score at 31-30.

The Catholic grade schools hold their basketball games on Sunday afternoons beginning at 1:00 p.m. at the various schools in the area. If you like basketball, it's great to watch these kids as they put their hearts into the game.
